Research Electives

The Master of Commerce provides an opportunity for additional research electives (which may provide a pathway to research higher degree programs).

This equips you with the relevant knowledge to jumpstart or advance your chosen profession.

Students with a single major who are interested in proper research and have excellent grades need to make choices early in their degree if they wish to ask for permission to take these courses.

During the exam

In an exam, **time** and **conciseness** are key.

Conciseness is still important – for a start, don't develop bad habits! Plus, your answer needs to be focussed and on point.

Know how many minutes to ISM7202 is a 120 minute examination and 10 minutes 0 points. If you wanted to work on a 'point a minute', that gives you 40 minute jew the questions.

Remember, concise dot points are fine. If you are a or 'explain' you may prefer not to use dot points, though.

Grammatical problems or spelling errors do not matter! At least, not for marks.

Although - despite this, you will have access to all of the Word features of course and you should endeavour to make your answers as clear as possible.

THIS IS PARTICULARLY IMPORTANT WITH A T M

'Reason[s]' and 'Justify' vs 'Explain' vs 'List' vs 'Identify' vs 'Discuss'

Dot points are fine and recommended (spelling doesn't matter, but I do have to get your concepts).

The sample exam is a good guide!
